PROFESSIONAL SUMMARY

Azure & Microsoft 365 Engineer with 14 years of experience in infrastructure and enterprise messaging environments. Specialized in Exchange Online, hybrid cloud architecture, and automation using PowerShell and Microsoft Graph API. Experienced in managing large-scale environments, including 40,000+ mailboxes, and executing migrations of 15,000+ mailboxes to Exchange Online. Proven ability to enhance system reliability, security, and operational efficiency in enterprise environments.

TECHNICAL SKILLS

Cloud Platforms: Microsoft Azure, Microsoft 365 (Exchange Online, Teams, SharePoint)

Automation: PowerShell, Microsoft Graph API

Messaging Systems: Exchange Server (2010–2019), Exchange Online, Gateway

Identity & Access: Azure AD, ADFS, RBAC

Migration: Hybrid, Cutover, Cross Tenant, Tenant-to-Tenant M365 Migration

Infrastructure: Windows Server (2008–2019), DNS, Active Directory

Security & Compliance: Email Security, DLP, Audit Logs, eDiscovery

Other: AWS Workspaces, SMTP Relay

PROFESSIONAL EXPERIENCE

Bauer Corporate IT Services, Mumbai

Exchange Administrator

📅 Jul 2020 – Present

- Managed and optimized Microsoft Azure and Microsoft 365 environments for 6000+ users, ensuring high availability and security compliance
- Led large-scale migration of 10,000+ mailboxes and public folders to Exchange Online
- Provided L2/L3 support for Exchange Online and Exchange 2016-19, resolving complex issues within SLA targets
- Maintained and enhanced hybrid infrastructure (on-premises + cloud)
- Designed and implemented service improvement initiatives, increasing operational efficiency and reducing incidents
- Delivered monthly and quarterly SLA/KPI reports to stakeholders and leadership teams
- Automated repetitive operational tasks using PowerShell and Graph API, reducing manual effort and improving consistency
- Collaborated with global IT teams and business stakeholders to align cloud solutions with business requirements.

Spectraforce Technologies, Pune

Lead Exchange Administrator

📅 Mar 2018 – Jun 2020

- Managed enterprise messaging systems (Exchange Online & Exchange 2016)
- Executed tenant-to-tenant M365 migration for global client

- Automated mail flow and SMTP relay configurations
 - Handled Teams, SharePoint, and OneDrive support (L1/L2)
 - Implemented security policies (phishing protection, external tagging)
 - Managed mailboxes, retention, litigation hold, and compliance policies
 - Administered Azure AD, DNS, and ADFS environments
 - Delivered infrastructure improvements and SLA reporting
-

CSS Corp, Chennai

Senior System Engineer

 Jun 2016 – Mar 2018

- Led Exchange and Windows infrastructure teams (20+ engineers)
- Managed enterprise clients including cloud infrastructure and security environments
- Planned and executed Exchange to Office 365 migrations (Hybrid & Cutover)
- Acted as escalation point for critical incidents
- Created technical documentation, SOPs, and knowledge base articles
- Delivered training to technical teams

Key Achievements:

- Improved incident resolution time through process optimization
 - Successfully migrated large-scale Exchange environments to cloud
-

MSP1 IT Services, Mumbai

Server Administrator (L2)

 Nov 2012 – Jun 2016

- Managed and supported 3000+ servers across enterprise clients
 - Administered Active Directory, DNS, DHCP, GPO, WSUS
 - Provided Exchange Server support (2007/2010)
 - Performed root cause analysis and implemented long-term fixes
 - Managed backup, patching, and system monitoring
-
